Introduction

Billions of people have a simple desire: to own a small business so they can stop working for someone else and secure their family's financial future.

The desire may be passionate or practical. You may want lots of money or just enough to cover your family's money needs, to buy a car or get surgery for your child. Whatever the reason, choosing the right business is critical, and finding the right kind of business isn't easy.

Unfortunately, most never realize their dream because most businesses require lots of cash to get started for huge license or franchise fees, to buy products, or to sign long-term leases for store or office space.

Many professions from doctors and lawyers to mechanics and plumbers require special training that takes time and money. Even living in a small town or village can often cost you money, if your business can only sell to local people.

What makes the perfect business for you?

Every situation is different, but certain key points are critical for you to succeed. This Guide Book lists 7 Critical Requirements that give you the best chance of success today. You can truly make money from any town or village, at any economic level, even if you have little or no money to start with.

That's worth repeating: You can make money today from any town or village, even with little or no money of your own.

You cannot do this with just any business. Choosing a business that lets you tap into the wider world market means your income has no limits. Fortunately, technology allows you to do this fast -- but you still need the right products and services customers will spend their money on.

There are 7 Critical Requirements to start your successful global business and make money from your home and be a success.

The 7 Critical Requirements To Starting And Succeeding At A Global Business From Your Home

1) You must have access to the Internet -- either at home, a library or community center, or even an Internet café. Since you are reading this Guide Book you already have the Internet, because you visited our website (www.Club-Asteria.com) and had us email this Guide Book to you. You've already got one of the 7 Critical Requirements for a successful business of your own.

The Internet gives you unlimited resources AND unlimited numbers of customers.

People with money in other countries WILL PAY YOU for the products and services they want, whether you live in India or Iceland, Kazakhstan or Kenya, Bangladesh or Belgium, the U.S. or Ukraine... anywhere at all.

The Internet levels the playing field WHEN you have these other Critical Requirements in place:

2) The company you do business with should have a global vision for helping people, not just "making money." You will need products or services to sell, which usually means getting them from a big corporation. Choose a good company that is concerned about people and our world.

Why is this important? We all know what happens when big corporations don't care about what's best for the regular people. We all have a responsibility that is bigger than ourselves. We all touch other peoples' lives, and when we do, we should always leave them better off than when we met them. Please make sure your business is a giving business, not a taking business. Bring value to your community, and people will see you as a force for good.

Make sure any company you buy from has integrity and credibility. Club-Asteria was founded by Andrea Lucas, who spent much of her life traveling all over the world helping millions of people in need during her years with the World Bank and other global ventures.

Club-Asteria members make the most money possible on the products and services you sell. With our profits we support micro-loans, new wells, animals and more to people who need it most, and ask successful members to donate memberships to others who cannot afford to pay themselves.

3) Choose a business with a low -- or FREE -- entry cost. No matter what the business is, it is no good if you cannot afford it. Caring companies make sure people can start cost-free if they need to, so you can start your own business no matter what. Club-Asteria has several levels with many ways to make more and more money faster and faster.

Club-Asteria's Free Member Program is designed so people with little or no money can at least get started and make money to lift themselves up out of poverty with dignity. Even these free members get everything they need to start a profitable business, including:

- A personalized website with ZERO monthly hosting fees (even people who know nothing about setting up webpages can start making money with their own website)
- Products, services and travel packages they can sell to anyone in the world and make money WITHOUT having to pay for in advance (no up front inventory cost). They can also buy them for themselves at reduced distributor pricing if they want through their website.
- Connect with tens of thousands of other members worldwide, each with businesses of their own, through our Global Forum
- Cost-free access to our beginners' level educational tools and live webinars, plus world-class advanced business training and personal development programs for significantly less than others pay

BECOME A MEMBER NOW!

Club-Asteria also has Premium Membership levels with additional services, like 100% free access to our library of over 10,000 business and personal training titles, our proprietary lead generating program and our online "e-wallet" that lets you access or send your money from anywhere in the world, 24 hours a day. We cover each membership near the end of this Guide Book, but our top level members pay less than \$20 a month, so even the poorest new free member can quickly earn enough to afford a Premium Membership and get all the benefits.

4) Your supplier should let you use their money, providing their products and services for you to resell without any expensive inventory requirements. You should have their full inventory available so you can make sales and earn commissions, but you should never have to pay for inventory or shipping items to your customers.

Warning: Avoid businesses that require you to pay up front for products! You should not have to buy any "minimum" amounts of inventory. Plus, storing inventory means spending more money to rent space. NO office, NO warehouse, and NO storefront is needed in Club-Asteria, because no charge is made until AFTER your customer has paid you! Being able to build a simple business without inventory from your home -- or anywhere else -- means Club-Asteria Members can succeed anywhere in the world.

5) Find an EASY business. The simpler it is, the faster you make money so your business pays for itself and you can duplicate your efforts. Remember, you are only one person! You can only grow as fast as what you can do yourself UNLESS you can bring on others. Duplication let's you own your business, instead of it owning you! Duplication increases your income dramatically and helps spread wealth and success to other people who need it too.

The easier the business is to learn, the easier you can duplicate your efforts by sharing with others, so everyone can make more money. Club-Asteria makes it very easy to duplicate yourself over and over... Club-Asteria literally does all the training for you.

6) The company that supplies you should treat you like a partner, and provide you the basic training, assistance and tools you need to get started and succeed. Not only that, they should have plenty of other inexpensive resources you can access so you can become super successful, if that's what you want.

We've shown how Club-Asteria provides even free members the training they need to start a successful money-making business. To grow, we all need ongoing personal development and business training to keep improving our life and business. A caring company won't leave you to find the training you need on your own. Club-Asteria makes quality training available so serious people can learn and grow for much less than getting a business degree or trying to teach yourself.

- Our world-class educational programs help you grow in your business and personal life
- You earn easy commissions marketing our products and services, so you can earn more money from day one
- Our discount shopping and travel packages let you enjoy nice things for your family for less money, and make travel affordable to visit family or for holiday
- Mobile "e-wallet" cash management and transfers let you access your commissions from anywhere in the world, free from money-changers and conversion schemes

BECOME A MEMBER NOW!

Club-Asteria members ARE our partners in business success AND in helping us succeed at im-

proving the lives of millions of people all over the world, through our programs that provide micro-loans and other assistance worldwide.

7) The company should have a completely open pay plan where you can check your status any time, see your sales and the commissions or other payments due you. You shouldn't have to wait weeks to get paid, either! An upright company will pay you regularly and on time.

The more of these 7 Critical Requirements your business meets, the greater your chance of business success.

We don't know of any other company that offers you the opportunity to begin your own business for less than \$20 a month, give you a proven business structure that pays for itself, doesn't require big investments, inventory or overhead, and is easy to duplicate so you can help others and earn more money.

Club-Asteria meets ALL Seven Critical Requirements Criteria and more.

Common Questions

Here are some common questions we get asked. If you have other questions [CLICK HERE](#) to Contact Us with your question and we will get back to you within 48 hours.

Where Does The Name Asteria Come From?

It comes from Greek Mythology! The name "Asteria" means "Star". This name was given to five famous women:

Asteria was the Titan goddess of oracles, prophetic dreams and astrology. Asteria flung herself into the Aegean Sea in the form of a quail in order to escape the advances of Zeus. She became the island of the same name. Later, the island Asteria was identified with Delos, which was the only piece of earth to give refuge to the fugitive Leto when, pregnant with Zeus's children, she was pursued by vengeful Hera.

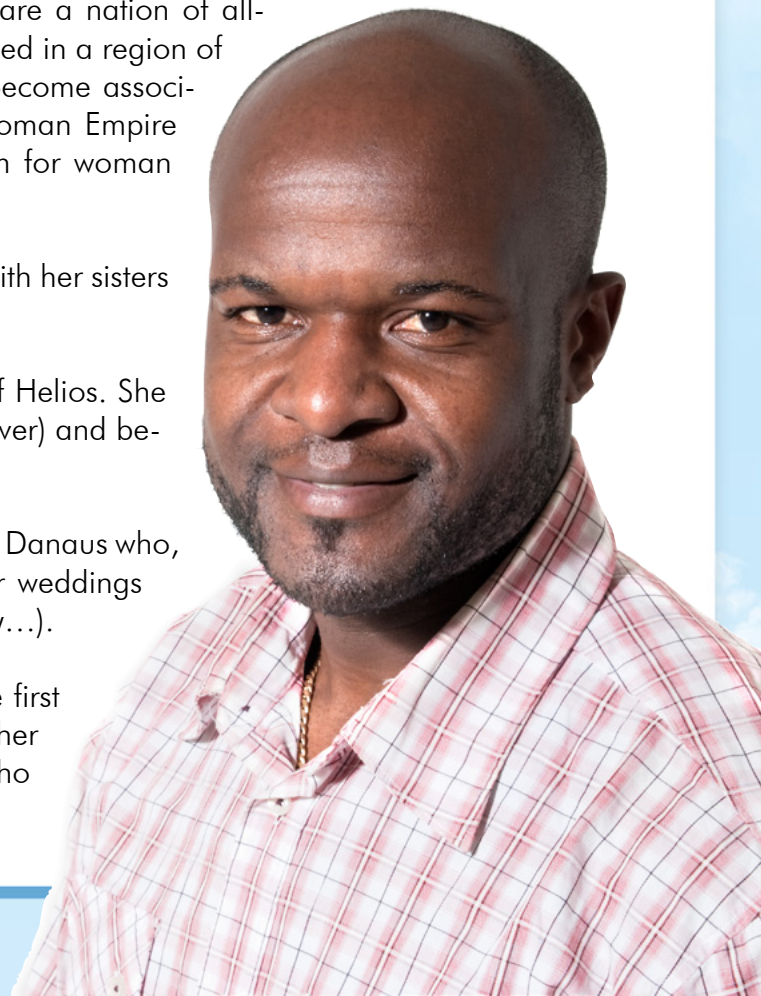

Also, there was Asteria, the Amazon. The Amazons are a nation of all-female warriors in Classical and Greek mythology placed in a region of the modern territory of Ukraine. The Amazons have become associated with various historical peoples throughout the Roman Empire period. From then on their name has become a term for woman warriors in general.

Asteria of Alkyonides, flung herself into the sea along with her sisters and was transformed into a kingfisher.

Asteria or Astris was one of the Heliades, daughters of Helios. She married the river god Hydaspes (the modern Jhelum River) and became mother of Deriades, king in India.

And lastly, Asteria was one of the Danaids, daughters of Danaus who, with one exception, murdered their husbands on their weddings nights. She was, briefly, the bride of Chaetus (obviously...).

We chose Asteria for our company name to honor the first two women: the Titan Asteria, who gave refuge to another when desperately needed; and the Amazon Asteria, who

was a warrior ready to fight for her rights.

Following in the footsteps of these two great leaders, Club-Asteria stands for helping and empowering its Members!
